INTRODUCTION TO THE MAGIC OF RAKU

Master Workshop

This course provides a detailed approach to RAKU glazing, decorating and firing techniques. Teaching participants on the field, the possibilities around firing technique that essentially permits rapid firing cycles (about 40 minutes). This technique allows watching and controlling the melting, and finally, the rapid cooling of the parts.

Participants will be provided with accommodation, full pension, material and recreational activities that include bread-baking at the village wood stove and a guided hike to the village of "Candal"
